VISTA Landscape Lighting

All VISTA high-grade aluminum components are hand inspected before passing an exacting multi-stage pretreatment and cleaning process. Production teams ensure that each part is properly prepared before the application of a super durable polyester powder coat finish. This special powder coat formulation is offered in 13 standard colors and is warranted for 10 years.

Company History

39 Years Serving East Tennessee

Howard Walker
Owner & President
2nd Generation

LOWE Lawn & Pest Control is a family owned company that began in 1969 with one man's dream and hard work. LOWE continues to be fully owned and operated by the second and third generations of the original founders.

"My business practices are based on honesty and fair dealings with our clients, designers, office staff, subcontractors, suppliers and laborers alike. I continue to study new procedures, materials, and products and proactively research innovative ideas."

Howard Walker, son of the founding partner, believes that "by doing this, I can maintain close communication with everyone— clients and the on-site crew. I take personal interest and responsibility for everything that goes on at LOWE Lawn & Pest Control.

Jamie Walker-Swindell
Administrator / Landscape
Designer
3rd Generation

As of 2000, LOWE expanded to include a full service lawn care division, attending to the needs of both commercial and residential properties.

To better serve its increased customer base, LOWE relocated its offices in 2009 to its present facilities in Seymour.
