## Company History 39 Years Serving East Tennessee

Howard Walker  
Owner & President  
2nd Generation

Jamie Walker-Swindell  
Administrator  
3rd Generation

LOWE Lawn & Pest Control is a family owned company that began in 1969 with one man's dream and hard work. LOWE continues to be fully owned and operated by the second and third generations of the original founders.

Since inception, LOWE has been servicing pest control and termite needs of residential and commercial properties in East Tennessee.

As of 2000, LOWE expanded to include a full service landscaping and lawn care division.

To better serve its increased customer base, LOWE relocated its offices in 2006 to its present facilities on Dry Gap Pike in north Knoxville.

**LOWE** Lawn and Pest Control  
1705 Dry Gap Pike Suite G  
Knoxville, TN 37918

# PEST CONTROL

**Monthly Service** This service is recommended for homes & businesses that are highly infested with pests. Some types of pests breed on a monthly basis so if your structure is infested with any of these types, monthly service would be the most adequate. This is also for homeowners who have zero tolerance for sharing their homes with insects, spiders or rodents.

**Every Other Month Service** This service is recommended for homes that are lightly infested with pests., yet the homeowners prefer a more routine service.

**Quarterly Service** This service offers an economical plan with service that is rendered four times a year. It is designed for customers that have specific seasonal problems or for homes with a light flow of pests.

**Mosquito Treatment** We inspect your property for stagnant water, a common ground for breeding mosquitoes. We advise you about areas that need attention and treat the areas where mosquitoes are found. Homeowners are continually reporting that they have regained control of their outdoor living areas.

**Odd Job** This is a one time treatment on a specific pest.

# TERMITES

## Termite Control

### Why worry about Termites ?

- **Termites** cause billions of dollars in damage each year
- **Termites** primarily feed on wood
- **Termites** damage paper, books, insulation, and swimming pool liners
- **Termites** can injure living trees and shrubs

Termite Damage

### Let LOWE help protect your property investments.

- Termite inspections
- Termite treatments & annual renewals
- Termite letters (*required by lending institutions*)
- Pre-construction treatment
- Powder post beetles
- Fungicide application
- Installation of drains and vents

# THOSE "ANTS" MIGHT BE TERMITES

*Know the dangerous difference between ants and termites.*

Here's how to tell them apart:

- Ant wings are different sizes
- Termite wings are all the same size
- Ants have elbowed antennae
- Termites have short, straight, beaded antennae
- Don't be fooled by color or size
- Ants can vary in size
- Winged termites can be brown or black
